New Zealand's most
DURABLE labels

brother
at your side

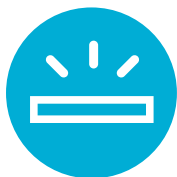

Brother laminated labels are proven to be **New Zealand's most durable**. The secret is in our unique, laminated 7-layer construction – which means these labels can withstand abrasion, chemicals, water, extreme temperatures, humidity and harsh light. This means Brother labels are

extremely versatile, they're the only labels you can **use both indoors and outdoors**.

Brother label makers use thermal printing, so there's no messy ink, toners or ribbons needed, and also come with a **4 year warranty**.

Brother laminated labels are proven to be...

Abrasion Resistant

Tapes were tested with a weighted (1kg) sand eraser device. After 50 tape "return" passes, Brother's tapes were only slightly scratched. **Ideal for industrial environments.**

Temperature Resistant

The results show that our labels can **withstand temperatures from -80°C to 150°C**. This means they're **perfect for labelling everything from skiing equipment to bakeware.**

Fade Resistant

Brother's tapes were attached to coated metal plates, and placed in a fade-inducing chamber. They were left for 100 hours to simulate a year in sunny surroundings. **Ink remained basically unchanged. Use our labels outdoors, all year round.**

Water and Chemical Resistant

Brother's tapes attached to a glass, were bathed in a variety of chemicals for two hours. **The chemicals had no effect on the tapes.** This is why our labels are **ideal for use in labs and hospitals.**

For Home Use

These label makers are perfect for keeping track of things you love both inside and outside the home... whether it's kids clothing, fishing gear, craft supplies, sports equipment, DVDs, plants, or items in the pantry or freezer – if you love it, label it!

PTM95

Functions

Hand-held label maker, supporting up to 12mm wide M tape

Applications and Key Features

Stationery, files and folders, pantry items and other household items such as keys or scrapbooks. Also great for kids!

- 210 symbols
- Multi-line print of 2 lines
- 9 frames
- 8 deco mode designs

Tape Type

M non-laminated tape

Maximum Print Speed

7.5 mm / sec

For Electrical Use

These electrical label makers are designed for tradies, with all the special features they need to get the job done.

Brother has New Zealand's most durable labels, able to withstand abrasion, chemicals, water, heat, cold, humidity and harsh light. Extra strength adhesive means they'll stick – and stay stuck – to acrylic, glass, PVC, stainless steel and even polyester-coated wood.

They also meet NZ/AS Wiring Standards, so you know they're labels a tradesperson can trust.

New Zealand's most
DURABLE labels

PTE100VP

Functions	Hand held industrial label maker, supporting up to 12mm wide TZe tape
Applications and Key Features	Trade environments, its built in symbols include bespoke electrician/installer specific designs.
	Industrial features:
	<ul style="list-style-type: none"> • 4 hot keys • 168 symbols • 1 font • Cable wrap • Cable flag • Faceplate • Multi-line print of 2 lines • 180dpi print resolution • Serialised print 1-9
Tape Type	TZe laminated, HGe laminated, Flexi ID, Strong Adhesive tape
Maximum Print Speed	20 mm / sec
Tape Cutter	Manual
Tape Widths (mm)	6, 9, 12mm
Keyboard	ABC & Numeric
Power Source	6x AAA batteries*, AC adaptor
Interface	N/A
Comes with	12mm black on white strong adhesive laminated TZe tape (8m), user guide, AC adaptor, carry case

*Requires additional purchase

New Zealand's most
DURABLE labels

PTE300VP

Functions

Hand held industrial heat shrink label maker, supporting up to 18mm wide TZe tape

Applications and Key Features

Industrial features include same as PTE100VP, plus:

- + 384 symbols
- + Heat shrink
- + Patch panel
- + Punch-down block
- + 5 hot keys
- + Barcode creation
- + Serialised print 1-50
- + 7 fonts
- + Multi-line print of 5 lines
- + Lithium-ion rechargeable battery

Tape Type

TZe laminated, HGe laminated, Flexi ID, Strong Adhesive tape
+ Heat-shrink Tube

Maximum Print Speed

20 mm / sec

+USB + PC and Mac compatible + Wi-Fi direct

12mm black on white flexible ID tape (8m), user guide, AC adaptor, carry case, Lithium-ion battery, wrist strap, + USB cable + P-touch editor software

*Requires additional purchase

Our Tapes

Our TZ and TZe tapes can be used to label far more than just stationery and containers. Due to their unique laminated design, these labels can withstand abrasion, chemicals, water, hot and cold temperatures, and harsh light. They even meet AS/NZ wiring standards. Unlike many consumer labels, Brother labels can be used outside, in the freezer, in the dishwasher and in the garden. They're also the most hygienic label on the market – they can be used in labs and hospitals as well.

7 DAY SUPPORT

Brother iPrint&Label

Brother iPrint&Label is a FREE app that enables you to easily print labels from your Apple® iPhone®, iPad®, iPod touch® or **Android™ mobile devices** on your wireless network. It's convenient and easy to use. Just download the app and it will automatically search for supported devices on your local wireless network. ^

Brother AirPrint

AirPrint allows you to wirelessly print directly from your Mac®, iPhone®, iPad® and iPod touch® and other AirPrint compatible **Apple® devices** on the same network. AirPrint will automatically find your compatible Brother label maker and wirelessly connect to it. No cables, no wires, just hassle free printing!

^ App requires a connection to a wireless network. iPrint&Label applies to PTP750W, PTP900W, PTP950NW, QL820NWB and PTE550WVP label makers. * App requires a connection to a wireless network. AirPrint applies to PTP750W, PTP900W, PTP950NW and QL820NWB label makers.
